Certified sites are listed in the attachment to this certificate

Bureau Veritas Italia S.p.A. certifies that the Management System of the above organization has been audited and found to be in accordance with the requirements of the management system standards detailed below

ISO 9001:2015

Scope of certification

Design, production and installation of pressure regulators, safety devices, relief valves, pressure stabilisers, butterfly and ball isolation valves, flowmeters for pressure pipeline, filters, separators, heat exchangers, indirect heaters, gas odouring systems, electronic and mechanical apparatus for measurement, process control, automation and data acquisition, treatment systems (including systems for crude oil desalting, dehydration and glycol regeneration, molecular screening dehydration), pressure reduction and/or measurement systems for natural gas, combustible gases obtained from renewable sources or industrial processes, technical gases and crude oil, biogas treatment systems for biomethane production (upgrading), biomethanation plants, injection stations and compression systems for combustible gases obtained from renewable sources or industrial processes, liquefaction systems for biomethane and carbon dioxide, control and power switchboards, automation systems, remote control and telemetering devices related to gas, water and energy infrastructures, networks and web's information technology systems.

Activities of after-sales support and supply of services, including installation and start-up support and maintenance services of the above mentioned product and systems, remote reading and remote management services for transmission and distribution systems of natural gas, combustible gases obtained from renewable sources or industrial processes and crude oil. Training and qualification of personnel involved in the surveillance activities of the natural gas transmission and distribution systems of natural gas, combustible gases obtained from renewable sources or industrial processes and crude oil. Storage and distribution of odouring liquids, gas chromatographic analysis. Filling and distribution of odouring liquid containers for natural gas and LPG. Design and production of water meters. Software development and implementation on PLCs, DCS, and computers. Design, manufacture and commissioning of machinery and work equipment for use within Pietro Fiorentini Group companies.
